

Thank you for considering Saint Joseph's Episcopal School!

A word from Mary Aperavich, Director of Admission and Enrollment

This site has been designed to give prospective families (parents and children) an easy way to gain an introduction to our academics and activities from early childhood (one year olds) through grade eight. We are pleased that you have decided to look at Saint Joseph's as a source for education during these very important years. We believe that you will agree that Saint Joseph's is a very special place.

Along with a summary of our curriculum, learning goals, activities, and other benefits, this site includes instructions about how to begin the application process. Questions are always welcome. Please call me at 561 704 2045 (main campus) and 561 278 7735 (Academy Campus) or email: maperavich@sjsonline.org to gain more information.

The best source of information about Saint Joseph's will come from your family's visit to campus for a tour when classes are going on and an opportunity to talk about our program and your child's personal needs. Appointments are welcome and an application need not be on file. Our teachers and students welcome visitors for campus appointments.

Cordially,

Mary Aperavich
